He was born a fool for love pause)

What he would'nt do for love(pause)

He's a fool, fool for love

She was six and he was seven

Used to send him off to heaven

When she said, you are my sunshine

The part he always liked the best

When she teased him with a kiss

And she said you make me happy

You're a fool for love

What he would'nt do for love

He's a fool, fool for love

Born a fool, you got to

Follow the rule, always a fool

A fool for love

He grew up he didn't get much better

Tattooed underneath his sweater

L O V E in blue

Seems he was never satisfied

Chasing girls like butterflies

Belivin' every word they said was true

Chorus (Change You're to he's and born to once)

Last time I saw him alive

He was Standin' up on the bride's side

Yelling his objections at the groom

The blushing bride was my bestfriend

She turned around and to him said

Yes you were my only sunshine then

Chorus (first one)

He's a fool, fool for love

He's a fool, fool for love

Fool for love, He's a fool

Fool for love, He's a fool for love

Fool for love
