"Angel On My Shoulder"

I wanna feel you now like a thousand lies
Bleeding out of your heart
Burning in the night

Don't wanna see you crying
Fallen out of light

I wanna feel you now
Like an august rain
Kissing summer goodbyes
I wanna see your pain

Don't wanna see you crying
Fallen out of light

I don't wanna see you crying little angel on my
shoulder
I wanna see you flying back to heaven where you
belong

I wanna feel you now like a thousand knives
Digging out of my heart
Burning in the night

Don't wanna see you crying
Fallen out of light

I don't wanna see you crying little angel on my
shoulder
I wanna see you flying back to heaven where you
belong

Don't wanna see you crying little angel on my shoulder
I said alright gonna get you crying
Come hell or high water since you've been gone
