At the first in the morning I know I've gotta get out  
Of here

I run around your room trying to find some gear  
I notice you in your bed, you're smiling at me  
Seems you don't understand my lady...

Blind for love  
I'm always losing someone  
I'm blind for love  
I never knew I stared at you anytime

Leading this type of life leaves you so strong  
When you're blind you don't even know when you're  
wrong  
Next time you see me I'm sure you'll burst into tears  
Seems you don't understand I'm escaping my fears

Blind for love  
I'm always losing someone  
I'm blind for love  
I never knew I stared at you anytime

Sunday morning it comes into the light again  
Three days gone I haven't even seen my baby  
I've got you by my side, you're smiling at me  
Seems you don't understand I must...

Blind for love  
I'm always losing someone  
I'm blind for love  
I never knew I...

Blind for love  
I'm always losing someone  
I'm blind for love  
I never knew I stared at you anytime
