"One's History Is The Other's Anihilation"

Visit "[One's History Is The Other's Anihilation](#)" on MotoLyrics.com

Why is it only to the Rich and the tourists to gain the right to see our wonderful galleries? Why is it to us, proud working Canadians, to sit on our asses and tell our wives to shut up? We still celebrate the day we became free. We celebrate democracy by drinking the same shit that killed numerous lives on the roads of this beautiful country. We celebrate the day we destroyed the lives of hundreds of native Americans. Their History has been erased by the taxes we pay every day. But there is still hockey night to keep us proud of who we are and how we relate to the colours of this flag, Not to the harm it represents or the evil it confines.
