Slipping back into complacency
I wanna look but my eyes can't see
Pressure's mounting every passing day
Feel so helpless swear I'm gonna break

And though I walk along this long and lonely road
Hold me close don't ever let me go
Every time I close my eyes and scream for you
I know that you will guide me through

You will guide me through

Wondering why I just can't get it right
Like all I ever seem to do is fight
Say I'm sorry time and time again
Say you'll love me now until the end

And though I walk along this long and lonely road
Hold me close don't ever let me go
Every time I close my eyes and scream for you
I know that you will guide me through

You are my strength whenever I am weak
You know I can't escape the past

You are my strength whenever I am weak
You know I can't escape the past

And though I walk along this long and lonely road
Hold me close don't ever let me go
Every time I close my eyes and scream for you
I know that you will guide me through

You will guide me through
