#### Chorus

Girl are you looking for a reason just to leave it  
And I am thinking the time is now  
Never really will I treat you better  
You got a .. so you can see ..  
You need someone who loves you and .. make you  
smile

Maybe is the way that you are looking at me in the  
morning\*  
without saying a word telling me that you want it\*  
got me feeling so wanted what he never did\*  
use to cry for that nigga but you made him irrelevant\*  
now when he's around me i could really care less\*  
he be texting her if she let him he gonna cheat on her  
next\*  
She can have that stress\*  
I'm On to the next \*  
start off on the stomach then its on to the breast\*  
boy you really on your j o i dig the way you sexing  
you be going down for hours thats\* the crazy work  
ethic  
ill get you a promotion if the head stay outstandin\*  
respect women but you beat that pussy like a sexist\*  
now he don't even need the lexus but he got one and  
ill be on my cherry darlin ridin\* shotgun \*  
We are one as long as I am with you I know I always got  
one

Girl are you looking for a reason just to leave it  
And I am thinking the time is now  
Never really will I treat you better  
You got a .. so you can see ..  
You need someone who loves you and .. make you  
smile

is it the calls and the messages you keep sending me\*  
keep littles notes asking me questions\*  
like what am i wearing\*  
the answer is always the same, nothing\*  
now when you coming over \*

response is I'm on my way make sure that blunt is  
rolled up \*  
and we gona live in the moment like we was meant to  
do it \*  
ill show u a side of the bed you going to need  
communion\*  
take out this pent up aggression on top of your  
midsection\*  
the sex is the sexiest with all your facial expressions \*  
and that mans a fool he really had it wrong \*  
thought actin standoffish would make me want his ass  
more \*  
always gave me competition emotional tug of war \*  
but all he did was successful push me into your arms..\*

He ain't gonna treat you like I do  
Is time for you to make that move  
I want you .. please you  
Everything you need you can find in me
