You can give me all that I see  
I will give you what I promised you  
For what you gave me you seem guilty  
I will see to you with all I threatened you  
Like you wanted to and needed to  
Before they decide it looks like suicide  
I will play the part, show a broken heart  
But it won't be real for I cannot feel  
No it won't be real for I cannot feel for you

See me in the shadows and cover me  
It has got nothing at all to do with me  
Tedious niceties long lost harmonies  
Something different to what you think you see  
So when you're caught up in the act of taking it out  
It means nothing to scream and nothing to shout  
And I will kill you dead  
And it will have been said  
You were warned.
