

## A Banda Virtual "Under The Lights"

Somehow you're grieving  
Sensation is the anger is growing  
Under the lights you're going down but now  
You're right on your own  
Is it impossible to feel like  
You have been out so long?

Is that so easy  
If you make a life so wild and alone

I have been crawling,  
been looking for someone who will feed me  
If you can show me anyway that I can go, please.

And every time you see  
the broken mirror you'll feel  
Vengeance and fear both sided hand in hand  
You're a trio.
