Let loose let it go
Come on baby let me give it to you slow
If you want it let me loosen up your clothes
Let's get to it baby
Watch me drop it low

Let it go let loose

Let it go
Come on baby let me give it to you slow
If you want it let me loosen up your clothes
Let's get to it baby
Watch me drop it low

Let it go let loose

I feel it when I want it
I know it when I feel it
Yea
You got just what I'm needing
Can't wait another minute baby
You'll get lost in my touch
You will love it so much
There is nothing I won't do
So if you want me like I want you

Let loose let it go
Come on baby let me give it to you slow
If you want it let me loosen up your clothes
Let's get to it baby
Watch me drop it low

Let loose let it go
Come on baby let me give it to you slow
If you want it let me loosen up your clothes
Let's get to it baby
Watch me drop it low
