You smile 'cause you think we're back together  
I laugh 'cause I know the answer's never  
You like to make up things  
You are a drama queen

Even though you always spend the night  
Give it up and I'll keep you in mind  
They don't call it breaking up for nothing

We're talking about friends with benefits  
Casual doin it  
We're talking about friends with benefits  
the casual get over it

Cotton candy is your food  
I got you into mountain dew  
We rent movies all the time  
Friends can do that and be just fine

Even though you'll always spend the night  
Give it up and I'll keep you in mind  
They don't call it breaking up for nothing

We're talking about friends with benefits  
Casual doin it  
We're talking about friends with benefits  
the casual get over it  
Friends with benefits  
Casual doin it  
We're talking about friends with benefits  
the casual get over it

Friends with benefits  
Casual doin it  
Talking about friends with benefits  
Te casual get over it
