I asked you to
go with me to the dance after school
You told me no
Looked through me as if I were a hole

In front of you
Here I am
They call me the invisible man

I hired a plane
to fly up in the sky and write our names
That's when we made eye contact
And that's when you walked away

In front of you
here I am
they call me the invisible man

In front of you
here I am
they call me the invisible man

I don't need her
Cause I got you
I don't need her
Cause I got you

In front of you
here I am
they call me the invisible man

In front of you
here I am
They call me the invisible man

In front of you
here I am
They call me the invisible man
