"Memory"

Visit "[Memory](#)" on MotoLyrics.com

Like a disease eating away at me
Your just another drug Im an addict of
I cant play your fucked up guessing game
Jealous and out of my head

Cause I know why you want me around
So youve got someone to push around
And when Im free, youre nothing but a memory
And when Im free, youre nothing but a memory
And when Im free, youre nothing but a memory
I hope my memory fades

Youll always hold a place inside my heart
Ill tear it out of me so I can start
To feel alive instead of dead inside
Fucked up and out of my head

Cause I know why you want me around
So youve got someone to push around
And when Im free, youre nothing but a memory
And when Im free, youre nothing but a memory
And when Im free, youre nothing but a memory
I hope my memory fades away
