[Will.I.Am]

one for the treble  
two for the bass  
3 for the ladies  
and four for the blaze  
yo yo yo  
It's that heat, that heat, that heat, that heat  
It's that heat yo

the heat comin thick down from sao paulo  
bankin new york shakin up the apollo  
rhyme like night people bite and swallow  
but the way to recite it is soundin raw hollow  
hollow like empty 40 ounce bottles  
holla at ya boy if you wanna date models  
brazilian beauties wit booties that wobble  
booby like tooties that fog up ya goggles  
yea I keep it hot full throttle  
beats bang out and keep yah head on bobble  
instrumentally I'm rich like lotto  
fundamentally I just can't follow  
or get sentimental when witnessing my bro's  
divin, duckin, dodgin from hollow  
point bullets that turn bodies into john does  
I stay positive and rock mics cause I go

[Hook]

One for the treble  
Two for the bass  
Three for the ladies  
and Four for the blaze

[Erykah Badu sings]

That Heat (X4)

So take off ya clothes  
relax yah soul  
unwind yah spine

[Erykah Badu sings]

It's that heat, that heat, that heat (X3)  
It's that heat yo

It's that heat comin in slow motion  
barbecue yah body keep yah body straight roasting  
light skin hunny's get the sun tan lotion  
dark skin hunny's in the summer no commotion  
you can catch me chillin by the ocean  
wit brazilian feminines sippin on potions  
girls lookin like cinammon toast  
and I got a little chocolate for yah cinnamon toast  
I got the notion to get real close  
that's a little ??? motion don't mind if I boast  
baby I can be yah favorite host  
break yah off wit a single or a freaky double dose  
just don't catch no emotions  
I bring heat from coast to coast and  
beats and rhymes is my devotion  
I'm turnin mc's into ghosts  
when I talk about

[Hook]  
One for the treble  
Two for the bass  
Three for the ladies  
and Four for the blaze

[Erykah Badu sings]

It's that heat, that heat, that heat (X3)  
It's that heat so

[Erykah Badu sings]

It's that heat, that heat, that heat (X3)  
It's that heat yo
