

7 Blue Skies "Waiting"

Visit "[Waiting](#)" on MotoLyrics.com

There is nothing anybody can do
So when it comes near you, push through
You better not hurt yourself
It's coming for you

I'm waiting
Take your hand out of the bottle
Just go on

Seems like it's out of a movie
Unreal, surreal
All of these feelings run through me
I cannot heal
Everything I am supposed to
What's wrong, so wrong
Take me right back to the start and
I'll move along
How could you tell me it's over
I'm waiting
Take your hand out of the bottle
Just go on

How could you tell me its over
Ive been waiting for so long
Take your hand out of the bottle
When will I meet you, another
Ive been hiding for so long

How could you tell me it's over
When will I see you another
I cannot stop and discover
Now is the time when you calm down
