Everyone's circling 'round
back into my life now
But i'm keeping my head down,
no use in turning around

I'm headed for car crashes, batting eye-lashes on pretty girls
I'm headed for cool breezes, oh jesus
Is this the world I choose to believe in?

Now that i'm back on my feet
everyone wants to go get something to eat
but you're the only girl i'll ever love
you're the only girl i still dream of

And we're headed for long summers, all comers come on
we're headed for warm breezes, oh jesus
what took you so long

Where were you when i needed a friend
you were gone with the wind, but the wind was pretend
Where were you when i needed a call
you were nowhere, now you're nothing at all

got my lou reed dancing shoes
got my coney island blue
got my yellow-walled windowless room
got my blue eyes and my ... and groan
