There was a time

I really used to care about what others thought

And the way the talk

In a crowd I used to pull away

When she would kiss my face and touch my hair

She didn't care who saw

Chorus:

She was all over me

And I used to let it get all over me

Now to prove that I love her

I crawl on my knees

For the whole world to see

Now that she's all over me

The sky is blue

But from where I stand in the middle of this heartache

It sure looks gray

All alone

What I wouldn't give if I could feel the familiar touch

Of her love holding me again

Chorus 2 times
