Bobby Braddock)

I knew something was the matter

It really needed my attention

And I had planned to look into it someday

But I was busy making money

I wanted you to be proud of me

Now I wish I could turn the clock back someday

I thought there was time

I never thought that you would leave me

I always thought that I could find you

Somewhere near a phone to answer when I call

Now you have my full attention

Now you're all that I can think of

This is not what I expected at all

I thought there was time

I thought there was time

Are you even on this planet

Can you see these pretty flowers

Or am I standing here just talking to the wind

How I wish that I had told you

How I wish that I had shouted

I love you I love you I love you I love you back then

I thought there was time

I thought there was time

I thought there was time

I thought there was time
