Don't trust the truth that they give you
Find it out for yourself
They lied about the tooth fairy
And santa's magic elves
Government conspiracy
Lies and cover-ups
Can't let the truth be known to us
They hide all their fuck-ups

Don't believe the lies
Don't believe everything
That you hear and see
If you want me to believe
Show your proof to me
'Cuz i'm not a blind follower
I question everything
One thing i will never have is
Gullibility

Don't believe the lies
