You might think it's wrong  
But don't hate her for what she's done  
You're s'posed to love her unconditionally  
Till the end of time

She didn't know it'd get out of hand  
Your new grandson wasn't part of the plan

So she let you down  
Just forgive her and move on  
With your brand new life  
It just might work out

You did all you could

Don't do more than you should

In her time of need  
How dare you turn your back and cede  
She's gonna need support  
To get her back onto her feet

If she had known what her actions would bring  
She'd have zipped up, and kept herself clean

Just open your mind, try to understand  
Your new grandson wasn't part of the plan
