

7 Mile "Can I Come Over"

Visit "[Can I Come Over](#)" on MotoLyrics.com

I know it's late

Baby but my love won't wait

I've gotta get with you

Got to get next to you right now baby

So don't tell me you're tired

I'll wake you up with sweet desire

Talkin' just won't do

I need to see you

Can I come over

And hold you all through the night

Can I come over

And show you what I've got on my mind

Can we get closer and closer

Till I feel your heart next to mine

Can I can I can I come over tonight

We could dance slow

To the slow songs on the radio

We could be making love until the sun comes up

All night baby

So don't tell me you're tired

Coz I just can't put out this fire

I don't want to sleep
Want you beside me
Can I come over
And hold you all through the night
Can I come over
And show you what I've got on my mind
Can we get closer and closer
Till I feel your heart next to mine
Can I can I can I come over tonight
We can talk till the morning
Or just make love all night
I don't care what we do
Long as I can spend this night with you, with you
Can I come over
And hold you all through the night
Can I come over
And show you what I've got on my mind
Can we get closer and closer
Till I feel your heart next to mine
Can I can I can I come over tonight
