(Fahey/Detroit/Ferrera/Guiot) 4:18

come on, tune in to the life
black sky blue world green eyes

and you'll come running
to the dark side of the moon
and 'though you'll never find us
we'll still be watching you

come on, tune in to the life
black sky blue world green eyes

no peace for the wicked
no rest for the good
no use in pretending
that love is in your blood

come on, tune in to the life
black sky blue world green eyes

come on

i ain't gonna sing that devil shit

come on
