I never said the words
so long inside
afraid to give a name
to my desire
So I let you slip away
like gold dust through my hands
But every night you hold me close
in a shadow dance
Soledad - Como la luna
Soledad - Esperando te aqui
Soledad - Toda mi vida
No me olvido de ti
I light the candle flame
pull down the shade
My heart's a lonely shrine
to love we never made
We live in parallel
across the empty blue
We are like earth and sun
and I still circle you
Soledad - Como la luna
Soledad - Esperando te aqui
Soledad - Toda mi vida
No me olvido de ti
I let you slip away
Like gold dust through my hands
But every night you hold me close
In a shadow dance
Chorus
(English Translation)
Alone - like the moon
Alone - I wait for you
Alone - all of my life
I can't forget you
