"Ash Of Thousands Dead"

i hear crawling in the other room, what i see
shouldn't exist
in an ancient town burns ash, ash of thousands dead
insanity doesn't exist here, nightmares are
constant reality
ancient religion; cult of fools

its destiny, birthing of a god, its destiny, buried in the
fog
its destiny, birthing of a god, its destiny, buried in the
fog

familiar faces, familiar voices; face of a girl as pale as
a ghost
look in the mirror, see the veins; halls of hell's
hallucinations

its destiny, birthing of a god, its destiny, buried in the
fog
its destiny, birthing of a god, its destiny, buried in the
fog
