Slip over the edge
Do yourself a favor
O.D., jump or pull the fucking trigger
Any way is gonna do 'cause you're already
Dead, but didn't notice
As you swallow the shit that society throws at your face
Everyday wrapped-up answers, so you don't need to
question

Now wake up,
Wake the fuck up
You've got one life to live
Don't let it substitute your
Will, or your thoughts,
Replace your hopes
By a couple of dreams
You can't buy
But you work to try so you're serving you're purpose

Join my reality

I'll take you high

To drop you harder
Onto this floor where you lay dying
But then, I'll get you back on your feet
To make you face my truth, your lies, my pain, reality
It ain't a better life but at least it's all yours again

What the fuck is
Wrong with you
Running after other people's expectations
Doing what you can't stand, I couldn't take it
You keep faking it well I don't care
I don't care

No, hate me,
But I won't give a shit
I've already sold you anyway
To buy all my hopes, my identity
You just won't deny anymore,

'cause I'll steel you freaking fifteen minutes

Kill the other me
