Decomposition symbiosis
Attraction of a twisted mind
The pleasures of the flesh
Orgy of the Eye
I hear the scream, the wheezing melody
Of their final breath

Nightmares formed in disgust
Repulsive joys of mind
We make ourselves the voyeur
Of infected morbid flowers

The sickness with no borders
This decadence we crave
Made us become
Children of the New Filth Order

Snuff pornography,
Psychotic needs of decreation
Feed on death,
Necrophagist purification
Hear him laugh,
The one rejecting human touch

Nightmares formed in disgust
Repulsive joys of mind
We make ourselves the voyeur
Of infected morbid flowers

The sickness with no borders
This decadence we crave
Made us become
Children of the New Filth Order
