Light the path crossing bridges of smoke
Leading to plain nonsense
The clouded reason's collapse killed all the regrets and
hopes
To exacerbate the senses
Stumble into euphoric dysfunction
Breathe in seeds of erratic distortions
Of mind,
And insanity you'll find
A friend we're digging out

Tonight
We are killing fucking logic
Gonna burn it, drown it
Throw it back into the gutter it belongs to
Reason, we will just crush you

Dive and fill up the emptiness
To let it sink into oblivion
Blunt your senses till you can't feel pain or happiness
They don't matter anymore
Bathe your lips in the mellow toxin
Swallow fuel to keep the burning

Alive
And rage you'll find inside
A fiend we're dragging out

Tonight
We are killing fucking logic
Gonna burn it, drown it
Throw it back into the gutter it belongs to
Reason, we will just crush you

I can feel crawling in my head

Tearing, stabbing, laughing, biting
Demons of retrospective nightmares
Come to take me out
Here we go

Tonight
We are killing fucking logic
Gonna burn it, drown it
Throw it back into the gutter it belongs to
Join us and embrace the decadence
