"Acid Manic"

Get out of my way
When I'm taking my turn
I'm an acid manic
Letting it all burn - baby

Beer in my belly
And nothing left to lose
All my answers tell me
Love is a lie, made to make you blue

Oh - words are dancing
Inside my head
Don't wanna know - don't wanna know
Well it's been a bad day
I think tomorrow will wash my sorrow
Or swallow it away!

So get out of my way
Cause I let it all burn
I'm an acid manic
Who knows how to take his turns

Neon flashing
And wind in my hair
My heart forsaken
Blinded eyes see, everywhere!

Yeah - you gotta bend to get along
Pretend and talk a different tongue
I know why - I know why
A storm in my veins make
Children cry and people die
And it's all in my brain!
