Crush my spine together now!
Baby-blue eyes, open your mouth
Use your mind speak my tongue
Take my breath, breathe my lungs

Seeing things that I can't feel
Live your own world, never the real deal
Blow your bubbles, fleshy lips
C'mon and move those bony hips

Yeah - I'm floating in a stream
I'm lady - heroin

Do you know we have a (sort of) situation
If you notice saturation
Horny baby turn around
Twisted colours take me now?

Deeper-deep inside your head
Reminded of a summer-sunset
Visions come and visions go
Kill your baby, do it slow!
