A movie shined like a beacon to a dog-forgotten man,  
Overwhelmed by the hustle and bustle of the city - yeah  
Heart-ache and head-ache, he's forced to endure  
The story of a victimized girl,  
More than a classic beauty was his hell on wheels,  
Headed San Fernando Valley

She wants to die so I cried  
She's a sexy queen

Sunset Strip - Rainbow club, this is our town little honey  
This is the life I lead, I live at night,  
At daytime I'm using my body  
American made and built to get laid  
Better stop it while you can  
You are a fantasy - a fantasy is the one you want to be

You sexy queen  
Oh! oh!

You sexy queen - yeah  
My girl called Savannah
