Pushed around and you don't wanna see me get upset
Figure it out, put 2 and 2 together in your head
So feel white satin-
By tomorrow night;
Just like some insect-
When you die, you die,

In a velvet slide
Yeah I'm ready and hot !
Doing any kind of city
'till someone got two

Inside another cave
It's cracking my bones
I feel intimidated

Certain subjects make me get so nervous all the time

Is it strange this medicine is boiling deep inside
Now I'm building a room,
That looks like a plain
But I'm breaking it soon,
'cause it's feeling the same way

In a velvet slide
Yeah I'm ready and hot !
Doing any kind of city
'till someone got two

Inside another cave
Still looking for stones
I feel intimidated
