Do do do do do do do do do do
You make my heart go bukaroo
I wanna be with you on a summers day
And play around with you in the hay
You've got the talents of a dreamer
And the charms of a gentleman
I wanna be with you right now so baby tell me when
To fly to you forever oh please say soon
And I'll make sure to kiss you under the full moon

That little thing called love
It wasn't sent from above

It was sent from you and all the things you do
Were perfectly suited like a foot and a shoe
Like a hand to a glove and a head to a hat
Still we have our differences like a dog and a cat
I can't eat I can't sleep I'm so in love with you
Those were the words in the playground at the school
Said by me now but once said by you
The dog you named after me also feels it too

That little thing called love
It wasn't sent from above
No, that little thing called love
It wasn't sent from above

It was sent from you
It was sent from you
It was sent from you ooh
It was sent from you ooh oh
