And even though he holds me like I've never been held
Deals the cards like they should be dealt
And even though he kisses my arm all the way up
I still feel like I am an empty cup
Despite the fact that he holds me tight
Keeps me on my toes all through the night
And sometimes almost gives me a fright
I still wanna be ginger rogers inside

I'm dancing with the devil, I'm dancing with Romanto
We're dancing all night, we're dancing the tango
No, no end in sight and all I wanna do is dance with you
It feels more right to dance the American smooth

And I know once we're done he's gonna run away
To another girl, another place another day
And again I'll be all on my own
And I will just wanna go straight back home
Whereas if I were with you I wouldn't feel so sad
And my night wouldn't have turned out so bad
You'd treat me like a lady not like a minx
You wouldn't have forced down all those drinks

I'm dancing with the devil, I'm dancing with Romanto
We're dancing all night, we're dancing the tango
No no end in sight and all I wanna do is dance with you
It feels more right to dance the American smooth

I'm dancing with the devil I'm dancing with Romanto
We're dancing all night, we're dancing the tango
No no end in sight and all I wanna do is dance with you
It feels more right to dance the American smooth
