"Evergreen Love"

Visit "[Evergreen Love](#)" on [MotoLyrics.com](#)

You, oh you
You mean everything to me
Baby, and I hope I mean everything to you

And we, oh we
We are so damn cute in every way
And I hope you know that I'll always be true

I'll latch onto you
Like a tree creature curling up
And I hope that you'll latch onto me too

Yeah this, this is great
And I hope that we can make
It last like evergreen love should

Elvis, he has our song and he sings it from his heart
Like the way I sing to you
And you sing to me

And we're at the stage where to be apart
It hurts like in the old movie
When I see you, you kiss my cheek

I said this, this is great
And I hope that we can make
It last like evergreen love should

Yeah this makes me smile
And I hope it lasts for a while
Forever, like evergreen love should
Forever, like evergreen love should
