I saw her standing
So close but so far away from me
Why did you have to leave me
Why did you have to go again
Nothing could change this feeling
Nothing could change my mind again
One last look at life and
One last chance and i'm out the door

I know it must be something I said so Fuck you to cause
your Fucked in the head
I know it must be something I said so Fuck you too

I saw her standing
So close but so far away from me
Why did you have to leave me
Why did you have to go again
Nothing could change this feeling
Nothing could change my mind again
One last look at me and i'm out the door so Fuck you
too

I know it must be something I said so Fuck you to cause
your Fucked in the head
I know it must be something I said so Fuck you too

So fuck you too
