

71 Gaps "Change"

Visit "[Change](#)" on MotoLyrics.com

This time I don't think that we'll be okay
Something's change something's gone again
Since you left life's been a drag
I sit around and watch the days goes by

This time I don't think that we'll be okay
Something's change something's gone again
Since you left life's been a drag
I sit around and watch the days goes by

On and on and on and on
Babbling your still here
Its when I'm down I think
Of what we were

On and on and on and on
Babbling your still here
Its when I'm down I think
Of what we were

On and on and on and on
Babbling your still here
Its when I'm down I think
Of what we were

On and on and on and on
Babbling your still here
Its when I'm down I think
Of what we were
