I was the one that looked over.
The one they thought would always leave.
I was the one that looked over.
So when your home just think of me.

I tried so hard to make you stay.
To make you think that I was still cool.
It didn't make anything work.
Its not meant to be.

You thought I'd fall.
You that I'd fell.
You thought I'd lose but look at me now.
You thought I'd fall.
You thought I'd fell.
You thought I'd lose but look at me now.

I never understood my life.
I never thought you'd understand.
I was the one that looked over.
So when your home just think of me.

I tried so hard to make you stay.
To make you think that I was still cool.
It didnt make anything work.
If its not meant to be.

You thought I'd fall.
You that I'd fell.
You thought I'd lose but look at me now.
You thought I'd fall.
You thought I'd fell.
You thought I'd lose but look at me now.

You thought I'd fall.
You thought I'd lose.
You thought I'd fail but look at me now.

But look at me now.
But look at me now
