back in the day we had it all
who would ever thought that we would ever fall
until the day you left my side
i only hid my face my feelings that i did hide

chorus:

you were the one, that said we'd be together
it was for end ever and ever
even though they said that it would not last
we always spent our time, we spent it together
if was for end ever and ever
even though you made it just the past

and now that it's all said and done, i only sit here
while you, are havin' so much fun
now what i am alone i see, you should have took
advantage of
my potentiality
