English translation

Willingly crawling along the earth
Everyday climbing repeats again and again
With destiny already engraved, just take a deep breath
It's not enough to distinguish

Days of wanting to smash it down with a roar
The rain like needles stopped, and you came
Sha la la I sing for you
Sha la la An eternity that loses its shine is "a symbol
of boredom" with no meaning
Like a pool at the bottom of the ocean
The high-up sky reflected in the water's surface I draw
swirls on
If it's a joke, I guess I kind of get it
Sha la la I sing for
you
Sha la la fight for myself
Sha la la I sing for you
Sha la la "Boredom" has reached its limit
I stood frozen on that stage, looking for the courage to
to strike back
I don't care, I don't care
I wonder if "existing" is something you can laugh
about...
At the pace you start running, the scenery flies by
I don't care, I don't care, I don't care
Will you go confirm what's right and what's wrong?
Struggling along to the goal and for the first time
knowing the truth
I don't care, I don't care
I wonder if you'll figure out when it becomes
tomorrow...
Falling down in the distorted March atmosphere
I don't care, I don't care
Going up the 13 steps
They'll be waiting for your hands
The pain known today leads to a new start
I'll be there, I'll be there,
I'll be there Those muttered regrets that cling to your
hands
Just who are you swinging around that sharpened
blade for?
