Save me from deep thought, gimme a show  
Hold the insight, just an opinion to go  
Don't confuse me with details or bore me with facts  
Skip over the hard parts, gotta learn to relax

Life as a series of 15 second spots  
A miracle baby and another space shot  
Blip ??Â“ it's so shocking and so sad

No purchase necessary, no salesman will call  
Your complete family tree on a plaque for your wall  
Remote channel changer inlaid with mother of pearl  
I gave you ten minutes, now give me the world

The thickest thick, the richest rich  
The softest soft, the whitest white

Call a press conference and blow your brains out  
The gun that sticks to the roof of your mouth  
The same old story, like it's never been told  
Someone else's bones shaking out in the cold
