Got to where you're going
Head back home

Time for what you're showing
Leave alone

Impress the debtors
Leave alone

Got to where you're going
Now headin' home

You're bad
You leave around the town(?)
You won't get angry
And you won't start a war
With me

It hurts so much
To notice things
Are going
Your way
She won't get angry
She won't start any
Until you stop
It hurts so bad
Until you want it alone
(?)
