Rollin'

I'm rolling on my bicycle Im rolling on just fine
The sun is out it's a clear blue sky
I got nothing on my mind
Im rolling out this crazy town
with too much noise and too much sound
I'm rolling on my bicycle Im rolling on just fine
I wont come back here
No I want come back here
Leaving everything behind

I'm rolling up and down the hill I think Im gonna fly
Its kind a late in the afternoon and the coutryman says
hi
Don't wanna stick around no more

cause I have seen it all before
I'm rolling up and down the hill I think Im gonna fly
I wont come back here
No I want come back here
Leaving everything behind

Im still rolling down the road Im rolling in the night
It's just me and the stars above and God I feel allright
You will never see my face again cuz im out of town
Im still rolling down the road Im rolling round and
round
I wont come back here
No I want come back here
Leaving everything behind
I wont come back here
No I want come back here
Cuz im rolling on just fine
