Lean On In

Lean on, Lean on in
I feel you on my skin
The radio
Sings a distant melody

Moonlight
Moonlight's bright
It's too far into the night
To contemplate
The working ways of this old world

Whenever I'm alone and by your side
You cast a spell that switches off my mind
And take me on trip
That just won't ever stop
I'm never going to end

Lean on, Lean on in
I feel you on my skin
The radio
Sings a distant melody

Whenever I'm alone and by your side
You cast a spell that switches off my mind
And take me on trip
That just won't ever stop
I'll never go away

Lean on, Lean on in
I feel you on my skin
The radio
Sings a distant melody
