Everybody's got one, name your problem
What's it gonna be today?
And if you don't got one, you're not human
Things will never change
See I've got problems, but i love them
Cause' they can go away
If they didn't happen for a good reason i wouldn't be here today

Get up, get in, or get out (x3)

Move to the left, move to the right If you stand still, you'll be here all night Move to the left, move to the right If you stand still, you'll be here all night Hey!

Everybody's got some, name your options What ya gonna do today? You can bitch and moan about it, But thing will never change See I've got options and i choose them So live will go my way See if it didn't happen for a good reason, I wouldn't be here today

Move to the left, move to the right If you stand still, you'll be here all night Move to the left, move to the right If you stand still, you'll be here all night Hey!

Get up, get in, or get out (x3)

Move to the left, move to the right If you stand still, you'll be here all night Move to the left, move to the right If you stand still, you'll be here all night Hey!

Just because you are here, Doesn't mean you belong Doesn't mean you belong here Just because you are here, Doesn't mean you belong Doesn't mean you belong

(1, 2, 1, 2, 3, 4)

Move to the left, move to the right If you stand still, you'll be here all night Move to the left, move to the right If you stand still, you'll be here all night Hey!
