Psych has gone to turn away on it's own  
Night just starts to care 'bout me at all

Respected from heaven  
Addicted to hell  
Another drunken sailor  
Just another drunken man

My forces got to fade to set the time  
We need to drift away to fake our minds

The reason is falling  
We needed to loose  
We've got to change our minds  
We got to change our attitudes

Away and anywhere  
To never find again  
In any of those spheres  
Just dreaming until the end  
To finally just become a legend of a man

Bragin' 'bout the culture of this land  
At least there's nothing left to understand

A nation's just calling  
Away from your roots  
No matter if we change our minds  
We'll always change our attitudes

Respected from heaven  
Addicted to hell  
Another drunken sailor  
Rises up to fall again
