"Another Day"

I know you're going away

I take my love into another day

Here my thoughts with me

Fell in love with your ways

I know you are going away

Leaves my heart into a daze

I know you are going away

Leaves a void in my heart and soul

Wherever you are, whatever you do

I feel the world surrounding you

Wherever you are, whatever you do

I know your independent but I'm trying to get trthought
to you

Wherever you are, wherever you are

Don't you know it al depents on you
