I was going around
Looking for a place (where we can live)
And I found it
when I was getting down yeah
Exploring many places
I wished I could find someone like you
And I felt so powerless
And my heart was getting lost here

*But everyone of us
Get(s) his way one day
Cause life can change your mind just
in one day
As we all know the world can die just
in one day
So I wanna see all of us
in love for one day

Live in love for oneday
Live in love for one day
Live in love forone day
Live in love for one day

And now I'm walking in this world
And I'm not alone
Cause since that cruel event
People learned life's first lesson
That nothing can take away
our own faith
That nothing can destroy our own way

*Repeat

Live in love for oneday
Live in love for one day
Live in love for oneday
Live in love for one day
