\*Spoken\*

It's summertime, and the livin is easy. Fishes are  
jumpin and my boys are high.... Awww Yeah.

\*Sung\*

The first time I looked at you,  
I didn't think I had a solid ? chance.  
The second time you moved me,  
Well I could see a glimmer in a momentary glance

And like a runaway train crashing in my head  
I need to explain anything you said.

Lets take a ride, we'll decide where we're going when  
we get there.

Lets take a ride, we'll decide where we're going when  
we get there.

Crack a shell, watch the soap,  
and I hope you don't see my dirty laundry.  
Cause  $A - B^2 = C$ ,  
applies only in geometry.

And like a Dylan refrain thrashin in my head,

I need you to explain anything you said.

Lets take a ride, we'll decide where we're going when  
we get there.

Lets take a ride, we'll decide where we're going when  
we get there.

Lets take a ride!

Like a Dylan refrain thrashin in my head,  
I need you to explain anything you said.

Lets take a ride, we'll decide where we're going when  
we get there.

Lets take a ride, we'll decide where we're going when  
we get there.

Lets take a ride...and we'll decide where we're going  
Lets take a ride... we'll decide where we're going

Lets take a ride... and we'll decide where we're going  
when we get there.

What the hell, crack a shell, and I hope you don't see  
my dirty laundry.
