Far away exists a bewitched land  
where all seems to be unreal  
once I crossed the wide abyss  
took the flight to the unknown

Down this tunnel I can see the light  
in the end all is peace and calm...

Now i know there's something else...  
I'm here roaming like a castaway

First thing you may feel is that you're dreaming  
but suddenly you hardly realise that's not correct  
deep down you are awake  
and you hear your speedy heart beats  
Am I daying or does it mean I must leave this place?

Lies..

That's what humans believe...

I love being so far away...

Down this tunnel I can see the light  
in the end all is peace and calm...  
Stop, you're still on time to think  
what you prefer to live  
all you can see is fuckin' real  
it's up to you now

How i could explain what I feel inside,  
as all my words will vanish in the end of time,  
I believe... in the power of the beyond,  
as in this land the sorrow seems to be alone

There's only one way to go away  
just concentrate your soul  
take tight my hands and think  
it's happening now

In case you want to go, you have to desire it  
from the bottom of your soul

no one can help you anymore  
you decide if your adventure has a good end  
or if you prefer... to remain in the beyond
