Here comes the action Here it comes at last Lord give me a reaction Lord give me a chance

You should follow me down In satellite town There's no colour and no sound I'll be ten feet under ground Gotta get out this black and white town

Here comes some action Put sound in my life Gotta get out to get compensation Gotta get out to get this to play

Well. leave me alone Boy, you try to find your way in this world You better make sure you don't Crack your head on that pavement now My god this is sick It's been plaguing me now This is a dangerous place now This is a dangerous place

You should follow me down In satellite town There's no colour and no sound I'll be ten feet under ground This black and white town

You should follow me down There's no colour and no sound In black and white town Be ten feet under ground In black and white town
