"Aurora"

Visit "[Aurora](#)" on MotoLyrics.com

You're staring at the sky again,
Looking hard but you can't see what's there.
You're closer to the end it seems,
Will you get to where you dream, we'll see.

You freaked out when you began
Your talk 'bout how we're on our own from here,
You're speaking for yourself.
I found more than just myself up here,
I gave myself a great Idea,
Live with Aurora and not you.

You're staring at the sky again,
Looking hard but you can't see what's there.
I'm closer to the edge with you,
I think I'm gonna spend some time alone.

You freaked out when you began
Your talk 'bout how we're on our own from here,
You're speaking for yourself.
I found more than just myself up here,
I gave myself a great Idea,
Live with Aurora and not you
